

LEED v4.1 certification

49 QUARRY PARK

ENERGY STAR SCORE: 97

37 QUARRY PARK

BentallGreenOak's sustainability approach is rooted in a data-driven approach to operational efficiency that drives better decision-making to reduce consumption and involves robust tenant and stakeholder engagement that builds community. In May 2020, 37 Quarry Park & 49 Quarry Park achieved LEED v4.1 O+M Gold certification, reflecting the buildings' commitment to integrating sustainable practices and continual improvement. Since acquiring the buildings in 2017, BGO undertook several initiatives to improve the performance of the buildings. Highlighted activities include participating in BGO's Target Setting program to identify and implement efficiency opportunities and participating in the ForeverGreen Tenant Engagement program. These buildings are also BOMA BEST Silver certified and were each awarded 2020 ENERGY STAR Certification, indicating that they are among the top energy performing buildings nationally.
